

## Invitation

### Increasing resilience of people affected by multiple displacement in eastern Democratic Republic of the Congo (DRC)

The Internal Displacement Monitoring Centre (IDMC), the Norwegian Refugee Council (NRC), International Alert and Climate Interactive cordially invite you to the presentation of the progress of their three-year project. This event will be an opportunity for different actors to learn more about our work in progress, exchange insights and knowledge and provide us with feedback and ideas.

Friday, January 23rd 2015

10 am - 11.30 am

International Environment House 2

Room Rhin

*Coffee, tea and croissants will be provided*

The aim of this project, which is funded with UK aid from the British people, is to reach a common understanding of vulnerability in the context of protracted and multiple displacement in eastern DRC. It also has the objective of informing humanitarian practice and programming to strengthen the resilience of people affected.

We hope that you can join us for this important event.

7 October 2014, Maziba, South Kivu, DRC. Displaced families and host families gather for a meeting.
